CHANDIGARH
UNIVERSITY
UTTAR PRADESH

Career Objective

Aspiring Artificial Intelligence & Machine Learning Engineer pursuing MCA (AI/ML) with strong expertise in Python, Machine Learning, and Backend Development. Skilled in building data-driven applications using Flask, Scikit-learn, and modern database technologies. Experienced in developing AI-powered solutions, web applications. Seeking an opportunity to contribute to innovative AI and machine learning projects while solving real-world problems through intelligent systems.

Education

- **Master of Computer Applications (MCA – AI/ML)** Chandigarh University, UP | 2025-2027 Current SGPA: 8.70/10.0
- **Bachelor of Computer Application (BCA)** Srinath University, Jamshedpur | 2022-2025. CGPA:9.24
- **Higher Secondary Certificate (Class XII)** Indian Certificate of Secondary Education | 2022 Percentage: 79.5%

Internship Experience

Web Developer Intern | SEMS Welfare Foundation

June 2024 – August 2024

- Developed and customized WordPress websites for clients across various industries, enhancing functionality and visual appeal.
- Implemented custom themes, plugins, and SEO optimizations, resulting in an average 30% improvement in website load speed and a 25% increase in organic traffic.
- Collaborated with cross-functional teams to improve UI/UX design, contributing to a 15% boost in user engagement and reducing bounce rates by 20%.

Academic Projects

ReportCare (Medical Report Verification System) | Role: Project Lead

Jan 2026 – Jan 2026

- Developed an **AI-powered web application using Flask and Python** to verify and analyze medical reports.
- Built a **machine learning model using ExtraTreesClassifier (Scikit-learn)** to predict potential diseases from patient medical data.
- Designed a **secure authentication system and database structure** to manage patient records and reports efficiently.
- Improved medical data processing accuracy and report validation efficiency through automated ML predictions.

AuraHire AI (Resume Screening System) | Role: Project Lead

Feb 2026 – Feb 2026

- Built an **AI-based ATS (Applicant Tracking System)** using Flask and NLP to automate resume screening.
- Implemented **Natural Language Processing (NLP) pipelines using NLTK and spaCy** for entity extraction, keyword matching, and skill-gap analysis.
- Integrated **PDF parsing and automated candidate scoring** to help recruiters identify top candidates faster using **Model Evaluation, Model Training, Data Preprocessing, Predictive Modeling**.
- Designed a **modern glass morphism-based UI** with authentication, resume analysis history, and automated PDF report generation.

Technical Skills

- **Programming Languages:** Python, JavaScript
- **Machine Learning:** Scikit-learn, Pandas, NumPy, TensorFlow
- **Web Development:** HTML, CSS, Bootstrap, Tailwind CSS, Flask
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Interpersonal Skills

- Strong analytical thinking and structured problem-solving approach
- Effective leadership and collaborative teamwork abilities
- Clear communication and professional documentation skills.

Achievements & Certifications

- **Participation:** Participated in **Young Researchers Symposium on Data Science for Science**
- **Participation:** **HackWithUttarPradesh** Hackathon at Chandigarh University UP.
- **Certification:** Generative AI Foundations Certificate Program: - UpGrad & Microsoft (2025)
- **Technical Head:** Project Manager in ICC at Chandigarh University UP.

Hobbies and Interests

- **Competitive Programming:** Active on LeetCode with a focus on algorithm optimization.
- **Open Source:** Contributing Projects on GitHub.
